**DETAILED ACTION**

1. This communication is responsive to your preliminary amendment filed 7/28/06.

Claims 17-31 are currently pending in this application. Claims 1-16 have been cancelled.

***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Allowable Subject Matter***

3. Claims 17-26, 28-29 and 31 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter: A cooling system for an electrical coil, having a temperature regulated reservoir that maintains a thermally coupled fluid in immediate proximity of a critical point of a heat dissipation fluid as claimed, is neither disclosed nor fairly suggested by the prior art considered.

***Claim Objections***

5. Claims 27 and 30 objected to because of the following informalities: "said basic magnetic field" in claim 27 should be corrected to "static magnetic field" as such is the field to which reference is made in the claim. Claim 30 contains an extraneous reference to claim 22 product of an apparent typographical error. Appropriate correction is required.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Manole, Hoang, Brenan and Laskaris et al., all disclose cooling systems. Note the abstract of each disclosure.
7. This application is in condition for allowance except for the following formal matters:

Correction of the noted claim informalities.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
